

AVIATION TRAINING

With four locations across the state, the Alabama Aviation Center, a unit of Enterprise State Community College, has been providing the aviation industry with well-trained, certified aviation technicians for more than fifty years.

The college offers FAA-approved airframe and power-plant programs, a general aviation technology curriculum for individuals with aviation experience, and an avionics technician curriculum. All aviation programs offered by the college reflect current

industry standards to ensure students are prepared for careers in the high growth aviation industry.

The Alabama Aviation Training Facility located at the South Alabama Regional Airport provides

aviation training to high school students in the 10th, 11th and 12th grades. Adult classes are also taught.

The facility consists of approximately 9,500 square feet of instructional and administrative space, including a faculty administrative office, secure records storage space, two large classrooms, a welding lab, composites lab, sheet metal lab and a woodworking lab. All spaces are well lit and ventilated in accordance with all local and national codes. Vehicle parking is provided adjacent to the building.

Aircraft taxiway and servicing opportunities are available at the airport.

MRO HANGAR COMPLEX

MRO facility which provides a fully operational paint facility and full-service avionics support **capabilities**. It occupies 77,000 sq. ft. of hangar and administrative office space, which includes executive offices and two conference rooms. **Currently occupied by DynCorp Intl.**

TWIN HANGAR COMPLEX

The facility supports aircraft maintenance, modification, repair and overhaul. The center includes two hangars with shop space and an engineering/administrative building, totaling more than 70,000 square feet. **Currently occupied by Gulf Air Group, Inc. dba Covington Maintenance Center**

NOSE DOCK HANGAR

Total of 24,000 square feet (80' x 300') with additional 15,000 square feet (50' x 300') confined area.

SOUTH ALABAMA REGIONAL AIRPORT CAPABILITIES

- 6,000 ft. runway and taxiway
- Runway is 100' wide and stressed to accommodate 160,000 lbs. dual wheel.
- Existing taxiway is 35' wide and stressed to accommodate 60,000 lbs. dual wheel.
- **Runway LED**
- 20,000 gallon Jet A fuel farm and 10,000-gallon 100LL fuel farm.
- (2) 3,000 gallon Jet A tankers.
- 100LL self-service fueling system.
- Fully equipped ARFF Fire Department. Fire Department has all required equipment to meet DCMA standards for large aircraft operations.
- ASOS (Automated Surface Observing System)
- 165-acre industrial park with infrastructure in place.
- Alabama Aviation College satellite campus onsite for training of A&P mechanics.

FIRE PROTECTION

Fully equipped fire department that meets Defense Contract Management Agency (DCMA) standards for large aircraft operations with Aircraft Rescue and FireFighting (ARFF) certified airport personnel. Meets National Fire Protection Association (NFPA) specification for protecting entire buildings with automatic fire suppression systems, fire alarm system & fire extinguishers.

South Alabama Regional Airport has a DOD contract to provide refueling to all types of government aircraft.
